

CATALOGUE FOR 1852,

OF A FINE COLLECTION OF

FLORICULTURAL

VEGETABLE AND AGRICULTURAL

SEEDS,

COMPRISING SPLENDID ASSORTMENTS OF

**GERMAN ASTERS, STOCKS, ZINNIAS, &c.,
besides a numerous List of other established
favourites, and many new and rare Seeds.**

In giving orders for Flower Seeds it is sufficient, indeed preferable, to mention the numbers without the names; but as the numbers are changed every year, it is absolutely necessary to say from the Catalogue for 1852.

Page 2 and 3 Necessary explanations.

4 German Flower Seeds.

5 Sundry Assortments.

6 to 26 Miscellaneous Flower Seeds.

Page 26 Packets of mixed Flower Seeds.

27 Flowering Bulbs.

28 to 31 Kitchen Garden and Fruit Seeds.

32 Agricultural Seeds.

THE

LIST OF VEGETABLE SEEDS

WILL BE FOUND TO CONTAIN ALL THE LEADING
AND MOST APPROVED VARIETIES.

TO BE HAD OF

**JAMES CARTER,
SEEDSMAN AND FLORIST,
238, HIGH HOLBORN, LONDON.**

Catalogues will be forwarded gratis and prepaid on application.

. The German Seeds are from the usual source.

A Catalogue of Dutch Bulbs will be published in due time.

January 1, 1852.

[Entered at Stationers' Hall.]

Gift of

Earl Blough

November 1957

2 THE NECESSARY EXPLANATIONS

respecting the Linnean Classes and Orders, the Natural Orders, Duration, Height, Colour of the Flower, Time of Flowering, and Price, in Eight Columns, are given below. The exemplification will be found at Page 6.

1st and 2nd Columns.—The Linnean Classes and Orders.

4th Column.—*Hardiness.*

- h.* hardy—*plants for the open borders.*
- hh.* half-hardy—*such us require a hot-bed.*
- t.* tender—*pot plants, require shifting.*
- f.* frame—*require protection till May.*
- g.* greenhouse—*greenhouse plants.*
- s.* stove or hothouse—*stove plants.*

Application : *ha.* hardy annual ; *hb.* hardy biennial ; *hp.* hardy herbaceous perennial ; *hs.* hardy shrub ; *hPb.* hardy bulbous perennial ; *hT.* hardy tree ; *hhA.* half-hardy annual ; *hhB.* half-hardy biennial, &c. &c. ; *ta.* tender annual, &c. ; *fa.* frame annual, &c. ; *ga.* greenhouse annual, &c. ; *sa.* stove annual ; *sb.* stove biennial ; *sp.* stove perennial ; *ss.* stove shrub ; *sPb.* stove bulbous perennial.

5th Column.—*Colour of the flower.* The following are the principal abbreviations :

<i>ash-grey.</i>	<i>er.</i> crimson.	<i>o.</i> orange.	<i>sl.</i> slate.
<i>ap.</i> <i>apetalous.</i>	<i>d.</i> dark.	<i>ptd.</i> painted.	<i>spot.</i> spotted.
<i>az.</i> <i>azure.</i>	<i>div.</i> diverse.	<i>p.</i> purple.	<i>stra.</i> straw.
<i>b.</i> <i>blue.</i>	<i>fish.</i> flesh.	<i>pch.</i> peach.	<i>stri.</i> striped.
<i>blk.</i> <i>black.</i>	<i>gn.</i> green.	<i>pk.</i> pink.	<i>sul.</i> sulphur.
<i>blb.</i> <i>blush.</i>	<i>gy.</i> grey.	<i>r.</i> red.	<i>v.</i> violet.
<i>br.</i> <i>brown.</i>	<i>l.</i> light.	<i>ro.</i> rose.	<i>va.</i> variegated.
<i>bif.</i> <i>buf.</i>	<i>lem.</i> lemon.	<i>sal.</i> saffron.	<i>w.</i> white.
<i>car.</i> <i>carmine.</i>	<i>li.</i> liliæ.	<i>s.</i> scarlet.	<i>y.</i> yellow.
<i>cin.</i> <i>cinnamon.</i>	<i>mul.</i> mulberry.	<i>sil.</i> silver.	<i>yh.</i> yellowish.

Example : *d. b.* dark blue ; *b. w. y.* blue, white and yellow ; *l. r.* light red, &c. &c.

6th Column.—*Usual height of the plant in feet* ; *trai.* trailer.

7th Column.—*Usual month of flowering:* 1, January ; 2, February ; 3, March, &c. ; 3–5, March to May, &c. &c.

8th Column.—*Price per Packet.* 6*d.* Packets may be had of those marked 3*d.*, but no smaller packets can be made than those marked in the Catalogue.

TIME OF SOWING.—Hardy Annuals, February till June, and in Autumn; when sown early many of the Annuals flower in May. Hardy Biennials and Perennials, March till June, and in Autumn. Half-hardy Annuals, &c. in February till May, on a moderate hot-bed. Many of the Biennials and Perennials marked *hh* frequently stand the winter without protection. The half-hardy Annuals may also be sown on a warm border early in May. The tender Annuals, as Balsams, &c., require a moderate hot-bed and re-potting to bring them to perfection.

The Greenhouse Climbers marked ** may be planted in the borders in May.

* Dwarf Plants proper for the edgings of beds. ** Ornamental Climbers.

† Usually flower the first year, if sown early ; *sp.* species, *var.* variety, *lf.* leaf, *fr.* fruit. The dots | ... | ... | ... | indicate a repetition ; *pl.* pluria, many ; *ex.* from.

I. The 24 Linnean Classes. (See Flower Seeds, 1st Col. page 6.)

The Linnean Classes are founded on the Sexual Organs.

<i>a.</i> <i>Stamens (male organs) equal.</i>	<i>c.</i> <i>Stamens united in sets.</i>
No. 1. <i>Monandria</i> 1 stamen	16. <i>Monadelphia</i> , 1 set
2. <i>Diandria</i> 2 stamens	17. <i>Diadelphia</i> , 2 sets
3. <i>Triandria</i> 3 "	18. <i>Polyadelphia</i> , many sets
4. <i>Tetrandria</i> 4 "	<i>d.</i> <i>Compound Flowers (Asters, &c.).</i>
5. <i>Pentandria</i> 5 "	19. <i>Syngenesia</i>
6. <i>Hexandria</i> 6 "	<i>e.</i> <i>Stamens on the style.</i>
7. <i>Heptandria</i> 7 "	20. <i>Gynandria</i>
8. <i>Octandria</i> 8 "	<i>f.</i> <i>Male and female separated.</i>
9. <i>Enneandria</i> 9 "	21. <i>Monœcia</i> , on one plant
10. <i>Decandria</i> 10 "	22. <i>Dioœcia</i> , on different plants
11. <i>Dodecadandra</i> 12 to 19 S. in the cup	<i>g.</i> <i>Male, female, and hermaphrodite flowers, on one or different plants.</i>
12. <i>Icosandria</i> 20 or more S. on the base	23. <i>Polygamia</i> , many marriages
13. <i>Polyandria</i> , many Stamens b. <i>Stamens unequal.</i>	<i>h.</i> <i>Flowers wanting, or incomplete.</i>
14. <i>Didynamia</i> , 2 long, 2 short	24. <i>Cryptogamia</i> , hidden marriages (<i>Ferns, Mosses, &c.</i>)
15. <i>Tetradynamia</i> , 4 " 2 "	

Classes.

II. The Linnean Orders. (See Flower Seeds, 2nd Column, page 6.)

The Linnean Orders are founded on the Sexual Organs, Seeds, or Pods.

a. Orders founded on the Styles, or female organs.

No. 25. Monogynia	.	1 style
26. Digynia	.	2 styles
27. Di-pentagynia	2 to 5	"
28. Trigynia	.	3 "
29. Tetragynia	.	4 "
30. Pentagynia	.	5 "
31. Hexagynia	.	6 "
32. Heptagynia	.	7 "
33. Decagynia	.	10 "
34. Dodecagynia	.	12 "
35. Polygynia	many	"

b. On the Stamens (male organs).

36. Monandria	.	1 stamen
37. Diandria	.	2 stamens
38. Triandria	.	3 "
39. Tetrandria	.	4 "
40. Pentandria	.	5 "
41. Hexandria	.	6 "
42. Heptandria	.	7 "
43. Octandria	.	8 "
44. Enneandria	.	9 "
45. Decandria	.	10 "
46. Dodecadria	.	12 "
47. Icosandria	.	20 "
48. Polyandria	many	"

c. On the sets of Stamens.

No. 49. Monadelphia, 1 set	d. Styles and stamens united.
50. Gynandria	e. Male and female separate.
51. Monœcia, on one plant	52. Diœcia, on different plants
53. { Polygamia æquælia, or Equal Polygamy	f. On the Polygamy.
54. { Polygamia superflua Superfluous Polygamy	55. { Polygamia frustrânea Frustrated Polygamy
56. { Polygamia necessaria Necessary Polygamy	57. { Polygamia segregata Separated Polygamy
58. { Gymnospermia Naked seeds	g. On the Seeds.
59. Angiospermia, in a capsule	60. Siliculosa, a small pod
61. Siliquosa, a long pod.	h. On the Pods.

III. The Natural Orders. (See Flower Seeds, 3rd Column, page 6.)

The Natural Orders are founded on Structural Affinities.

62. Acanthaceæ	86. Chœurbiacæ	110. Lythracæ	134. Resedacæ
63. Amarantacæ	87. Dilleniacæ	111. Magnoliacæ	135. Rosacæ
64. Amarylliacæ	88. Dipsacæ	112. Malvacæ	136. Rutacæ
65. Anacardiacæ	89. Eparidacæ	113. Marantacæ	137. Sapindacæ
66. Apocynacæ	90. Ericacæ	114. Melanthiacæ	138. Saxifragacæ
67. Araliacæ	91. Euphorbiacæ	115. Myrtacæ	139. Scitamineæ
68. Asclepiadacæ	92. Ficoidæ	116. Musacæ	140. Scrophulariacæ
69. Balsaminacæ	93. Francoïacæ	117. Nyctaginæ	141. Selaginacæ
70. Begoniæcæ	94. Funariacæ	118. Nymphadæ	142. Sesamæ
71. Berberidacæ	95. Gentianacæ	119. Oleaceæ	143. Silenacæ
72. Bignoniacæ	96. Geraniacæ	120. Ochniacæ	144. Solanacæ
73. Boraginacæ	97. Gesneriacæ	121. Onagriacæ	145. Stellatæ
74. Cactacæ	98. Gramineæ	122. Oxalidæ	146. Sterculiacæ
75. Campanulacæ	99. Hydrophyllacæ	123. Papaveracæ	147. Thymelæcæ
76. Capparidacæ	100. Hypericæ	124. Passifloracæ	148. Tropæolacæ
77. Caprifoliacæ	101. Irisacæ	125. Pittosporacæ	149. Tulipacæ
78. Cinchonacæ	102. Jasminacæ	126. Plumaginacæ	150. Umbelliferæ
79. Clusiæ	103. Labiatæ	127. Polemoniacæ	151. Urticacæ
80. Cobæcæ	104. Leguminosæ	128. Polygalacæ	152. Valerianacæ
81. Commelinacæ	105. Liliacæ	129. Polygonacæ	153. Verbenacæ
82. Compotitæ	106. Limnanthacæ	130. Portulacæ	154. Violacæ
83. Convolvulacæ	107. Linacæ	131. Primulacæ	155. Ihamnacæ
84. Crassulacæ	108. Loasacæ	132. Proteacæ	156. Zygophylacæ
85. Cruciferæ	109. Lobeliacæ	133. Ranunculacæ	

The names of the Natural Orders ending in ACÆ are chiefly derived from Generic Names, as CAMPANULACÆ from CAMPANULA; such as end in A only are not, as COMPOSITÆ, compound flowers; CRUCIFERÆ, cross-shaped; LABIATÆ, lip-flowered, &c.

The Natural Orders, for reference to which the numbers 62 to 156 afford great facility, will prove of essential service to the Amateur in forming, by comparison, an opinion of any plant in this Catalogue which is unknown to him; for instance, *Anagallis*, *Cyclamen*, *Dodecatheon*, *Pinnula pinnatifida* or Chinese Primrose, *Auricula* and *Polyanthus* belong to the same Natural Order, Primulacæ, No. 131; consequently should he not know Dodecatheon, the knowledge of one or more of the others would greatly assist him in forming an opinion of it. In making comparisons, the height of the plant should be considered. The Aster and the Daisy, for example, belong to the same Natural Order 82, but at first sight there does not appear to be much resemblance between them, the difference in the size of the flowers and height of the plants being so very conspicuous.

GERMAN FLOWER SEEDS

IN CHOICE ASSORTMENTS.

These Seeds warranted to equal, if not surpass, any in the Kingdom.

Explan. h. hardy; hh. half-hardy; t. tender; A. Annual; B. Biennial; P. Perennial.

CATALOGUE.

N.B. The Numbers 1 to 24 represent the 24 Linnean Classes (see Column 1st), whereas those indicating the Linnean Orders (2nd Column) and the Natural Orders (3rd Column) are arbitrary; their signification is given above (see Page 3rd). Example, *Campanula*, 5, 25, 75, belongs to the 5th Linnean Class, *Pentandria*, the flower having 5 Stamens; to the Linnean Order *Monogynia*, from its having 1 Style (*Pistillum*); and to the Natural Order *Campanulaceæ*, plants with Bell-shaped Flowers. See page 8.

MISCELLANEOUS FLOWER SEEDS.

The following Plants, with few exceptions, have no popular name; thus *Acacia speciosa* is rendered showy *Acacia*, &c.—In giving orders it is sufficient to mention the numbers and date of this Catalogue, 1852. N.B. The numbers being changed every year, it is absolutely necessary to say from what Catalogue they are taken.

The following plants are best known by the Popular Names, but as the Scientific Name is also necessary to show the genus to which they belong, it is also given. Such Popular Names as Convolvulus Minor, Flos Adonis, White Caudytuft, Columbine, &c., have little or no affinity with the Latin, and are not to be considered as translations.
